OraDump To Access

To convert Oracle dump files to Microsoft Access, OraDump to Access is the answer. It allows you to convert Oracle dump files to Microsoft Access databases without having to import them. Key Features: Works with Oracle dump files, EXPDP files and parallel export files. Merges data into MS Access databases (97, 2000, 2010 and 2013). Creates settings profiles. Creates backups. Free version and 30 days of trial. So, if you are looking for an application that will allow you to export Oracle dump files to Microsoft Access, then OraDump to Access is your answer. OraDump to Access Review To be able to assess this Oracle dump to Access converter, we have done some research and investigation about the software, which we will proceed to present below. First and foremost, it is important to keep in mind that the free version only supports up to 30 days of use and only allows you to convert up to 10 Oracle dump files. The main thing we like about OraDump to Access is that it allows you to export dump files and also convert them to MS Access databases. Furthermore, you can also back up your Oracle dumps to create a backup file that will allow you to import them later in case something goes wrong. The program will be a huge help if you want to access your Oracle dump files on a regular basis and not on an as needed basis. OraDump to Access Screenshots Lastly, in terms of how it looks, OraDump to Access is a stand-out application. The OraDump to Access UI resembles a wizard, which makes things quite simple as you can expect from a tool designed for such purpose. What this means is that, no matter whether you are a relative novice or an advanced user, you will be able to figure things out in no time. Pros and Cons of OraDump to Access Pros Allows you to export Oracle dump files to Microsoft Access. Allows you to convert Oracle dump files to Microsoft Access. Allows you to merge Oracle dump files to Microsoft Access. Allows you to create settings profiles. Allows you to create backups. Allows you to export parallel export dump files to Microsoft Access. Allows you to create settings profiles. Allows you to create backups. An innovative AppDB SDK for Android, it provides SDKs for developers to create applications for Android in less than 30 minutes. In

OraDump To Access Free Download For PC Latest

It is a utility designed to work on those with little knowledge of the Windows registry, but it should be pointed out that the program only works on Windows 7 and Windows 8. What Is OraDump Oracle OraDump Oracle is a software utility created with the purpose of allowing the conversion of Oracle dump files to Microsoft Access, with minimal effort required from the user. Contents It is important to note that not only EXP but also EXPDP Oracle dump files are supported, and as far as the outcome is concerned, you may want to know that MS Access 97, 200, 2010, and 2013 are your options. You should also know that parallel export Oracle dump files can be handled, and regardless of whether your dump files are encrypted, the program should perform flawlessly. Then, merging Oracle data with an MS Access database is an option, and if you want to convert individual tables, you can do that. All things considered, OraDump Oracle is a fairly approachable piece of software designed to migrate your Oracle dump files to Microsoft Access, with little effort being necessary on your side. While the conversion process can be customized according to your needs, it also allows you to store all these settings into profiles, which proves the app's focus on productivity and speed.
